Vision

ERUNI, University Grammar School Prague, creates an environment where talented young individuals, through direct contact with a university setting, develop independent thinking, critical judgment, and the ability to perceive the world in a broader context. Graduates of the school are prepared to succeed at prestigious universities both at home and abroad, applying their knowledge and skills with responsibility, ethical integrity, and an international perspective.

Mission

The mission of ERUNI, University Grammar School Prague, is to provide a rigorous and meaningful general education that integrates deep understanding, individual development, and an international dimension of learning. Through close integration with the university and by utilizing its academic, research, and cultural resources, we:

- **foster curiosity**, independent thinking, and the ability to ask questions and seek connections;
- **develop critical thinking**, argumentation, and an understanding of complex issues;
- **create a stimulating and respectful environment** that reflects each student's individuality and develops their unique strengths;
- **guide students toward openness** to different cultures, languages, and perspectives;
- **support a balanced development** of intellectual, personal, and social dimensions, alongside a responsible approach to learning and society.
